

## WHITE CLOTH

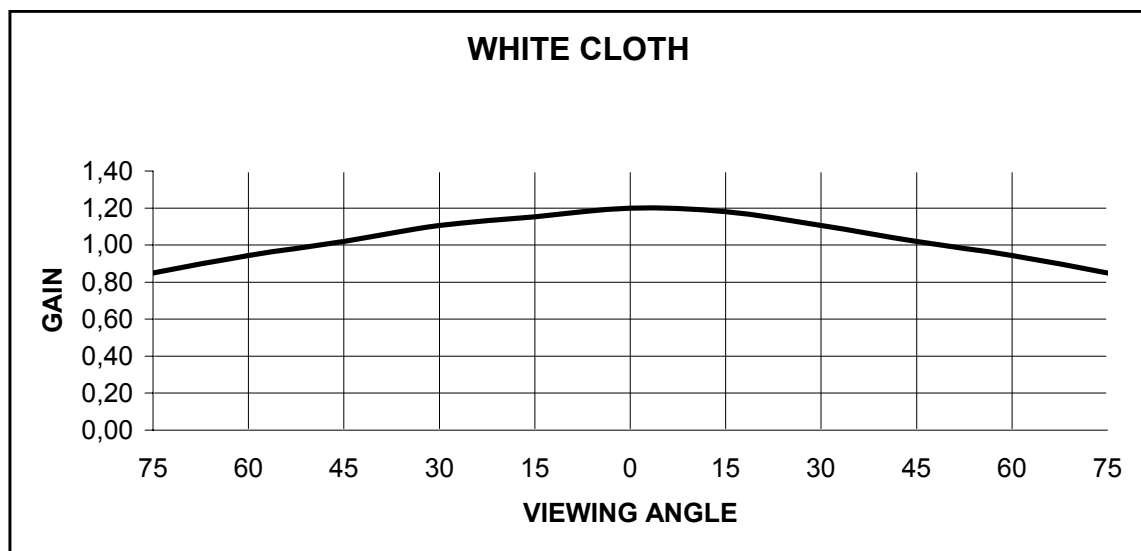

The WHITE cloth is made with PVC material whose chemical characteristics warrant a bright image with a good contrast.

WHITE has obtained fire-proof certification class M1.

Thanks to its flexibility, it is suitable to make screens with black edges and to mask the upper and lower side of the screen surface.

### WHITE CLOTH: TECHNICAL DATAS

GAIN	VIEWING ANGLE	SPOOLER HEIGHT	THICKNESS	FIRE-PROOF CERT.
1.2	150°	cm. 240	mm. 0,4	M1 7201-96
