

COMPACT HOME CINEMA is an electric screen dedicated to the Home Theatre market and it is the right alternative to the Double Format or to the Compact Tensioned screens because high quality features mark it out from the other Home Theatre models. A black drop on the top of the projection surface allows to install this screen inside false ceilings or inside rooms with high ceiling. Side black borders let perceive a brighter and sharper image.

Available in 4:3, 16:9 and 16:10 formats or *bespoke sizes*.
