

RAFFAELLO HOME CINEMA is a new electric projection screen, that has an innovative mechanical construction which makes it an ideal and unique solution for in-ceiling installations both in residential and AV professional environments.

Its peculiarity is that, once mounted inside the false ceiling, **the product is completely hidden and no visible openings can be seen.**

The mechanism is composed by two silent and fast motors, one for the opening of the trap door and the other for rolling down of the projection screen.

This model has black side borders of 5 cm. of width and a black top drop of 30 cm.

IMPORTANT: The structure allows substitution of the projection surface rolling pipe without the need to uninstall the product completely.

LEFT SIDE VIEW (motor side)

Available in 4:3, 16:9 and 16:10 formats or *bespoke sizes*.
