

PROJECTOR LIFT SI-H XL 300

Side view closed

The improved version of the **PROJECTOR LIFT SI-H XL 300** is equipped with a heavy-duty and silent motor which assures a fast and stable up and down movement of projectors up to 95 kg. of weight.

of projectors **up to 95 kg. of weight**. The lift is provided with an RF remote control and offers the possibility to set three limit stops: an upper stop limit, an intermediate one and a bottom one.

The intermediate stop can be set at the desired height for **projection mode**, whereas the bottom one can be adjusted up to 300 cm. stroke to be used as **service mode** position.

Furthermore, the motor offers the possibility to be **controlled by three wired low voltage contact closures**. These contact closures allow to control the motor via wires in the three positions: closed, projection mode and service mode.

A **safety device** is built-in in order to prevent accidents in case of any failure of the mechanism.

The projector anchoring frame movement is controlled by two steel cables that are certified for a maximum load of 350 kg. each.

A professional cable management system is supplied integrated in the lift.

Optional: Ceiling tile holder CT-XL 946

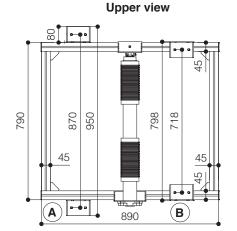

POSSIBILITIES TO FIX THE MOUNTING BRACKETS

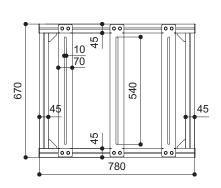

(A) You can fix the brackets mounted turned OUTSIDE.

 (\mathbf{B}) You can fix the brackets mounted turned INSIDE.
